Vendome Resources Corp. Management's Discussion & Analysis

(Expressed in Canadian dollars)

General information

The following Management's Discussion and Analysis ("**MD&A**") presents the results, financial position and cash flows of Vendome Resources Corp. ("**Vendome**" or the "**Company**") and should be read in conjunction with the Company's interim condensed consolidated financial statements and accompanying notes for the quarter ended August 31, 2016 and the audited consolidated financial statements of Vendome for the twelve-month period ended February 28, 2016 and with the related notes attached thereto.

In addition to containing an analysis of the six-month period ending August 31, 2016, this MD&A reports on items deemed significant that occurred between August 31, 2016 and the date on which the MD&A is approved by the Company's Board of Directors, which is October 28, 2016 inclusively.

The disclosures and values in this MD&A were prepared in accordance with International Financial Reporting Standards ("IFRS") and with the current issued and adopted interpretations effective as of January 31, 2016.

All dollar figures included therein and in the following MD&A are quoted in Canadian dollars. Additional information relevant to the Company's activities can be found on SEDAR at www.sedar.com.

Forward-looking statements and use of estimates

Any statement contained in this report that does not constitute a historical fact may be deemed a forward-looking statement. Verbs such as "believe," "foresee," "estimate" and other similar expressions, in addition to the negative form of these terms or any variations thereof, appearing in this report generally indicate forward-looking statements. These forward-looking statements do not provide guarantees as to the future performance of Vendome Resources Corp. and are subject to risks, both known and unknown, as well as uncertainties that may cause the outlook, profitability and actual results of Vendome Resources Corp. to differ significantly from the profitability or future results stated or implied by these statements. Detailed information on risks and uncertainties is provided in the "Risk Factors" section of the MD&A.

In preparing consolidated financial statements in accordance with IFRS, management must exercise judgment when applying accounting policies and use assumptions and estimates that affect the amounts of the assets, liabilities, and expenses reported in the consolidated financial statements.

Because the use of assumptions and estimates is inherent to the financial reporting process, the actual results of items subject to assumptions and estimates could differ from original assumptions and estimates. Unless otherwise indicated, all reference to "dollar" or the use of the symbol "\$" are to the Canadian dollar and all references to "US dollars" or "US\$" are to the United States dollar in this Management Analysis and Discussion.

(Expressed in Canadian dollars)

ITEM 1 - Overview

The Company was incorporated under the *Business Corporations Act* (Ontario) on February 27, 2007. In April 2010, the Company changed its name to Vendome Resources Corp. The Company is currently trading on the TSX Venture Exchange (the "**Exchange**") under the symbol "VDR", and on the Frankfurt Stock Exchange under the symbol "9VR". The Company is a reporting issuer in British Columbia, Alberta, Saskatchewan and Ontario.

Vendome Resources Corp. is currently engaged in exploration and evaluation of its 100%-owned Clinton Manganese Project near Clinton, British Columbia. There has been no determination whether the Company's exploration and evaluation assets contain mineral reserves and resources that are economically viable.

Property Descriptions

➤ **Clinton Manganese Project**

On March 8, 2016, the Company announced that it has entered into an agreement to acquire a 100% interest in the Clinton Manganese Project near Clinton, British Columbia. The 3 claims comprising the acquired property are located approximately 3-6 kilometers to the south of the village of Clinton, British Columbia and cover 954.53 hectares of land. Pursuant to the agreement, the Company had agreed to issue up to 12 million shares of its share capital and pay \$20,000 in order to acquire a 100% interest in the property. The Company has received approval for this acquisition from the TSX Venture Exchange and approval for issuing 1,400,000 shares as a finder's fee. On July 27, 2016 the Company issued the 12 million shares to the vendors of the property, along with the 1,400,000 finder's fee shares. On August 8, 2016 the payment of \$20,000 was made. In addition, one of the vendors retained a 2% net smelter return on the project which may be reduced on payment of \$1million per 1%.

➤ **Ivanhoe, Ontario Property**

The Ivanhoe Property is host to a 9 to 10 channel Geotem EM conductor associated with a strong magnetic high. The anomaly is circular in morphology with an approximate diameter of 250 to 300 meters. The Ivanhoe Lake Cataclastic Zone, a major structural feature in the area, borders the western margin of the anomaly. A secondary fault strikes northeast through the approximate anomaly center. According to Ontario Geological Survey ("**OGS**") regional mapping, the anomaly may coincide with a leucogabbro intrusive unit that hosts pyrite, pyrrothite and chalcopyrite mineralization. The OGS reported no surface grab assay values.

On September 9, 2014, the Company announced that it has acquired additional mining claims contiguous to its Ivanhoe Lake Property, located in the Borden Lake Gold District, Ontario Canada. The additional claims are located directly adjacent to the western boundary of the Company's original Ivanhoe Lake claims and double the size of the footprint in the region. The claims were acquired from the vendors of the Company's original claims pursuant to an amendment of the existing agreement. Vendome paid \$6,000 to the vendors and amended the existing agreement to include the claims under the same terms and conditions as in the original agreement.

On March 31, 2016, the Company applied its work credits to the original five (5) Ivanhoe Lake claims to maintain the claims in good standing. On March 31, 2016, the Company filed an Application for Extension of Time to Perform Work on the Ivanhoe Lake claims acquired by the Company on September 5, 2014. The application was subsequently denied by the Ministry of Northern Development and Mines. It is probable that the Company will not proceed with any work on the new claims and will let the claims expire.

(Expressed in Canadian dollars)

➤ ***San Miguel, Mexico Property***

In August 2011, the Company acquired a 100% interest in the San Miguel property from Santa Claws Minas S.A., de C.V., in the southern Sierra Madre del Sur precious metal belt.

The San Miguel property is approximately 2,000 hectares in size and is surrounded by the 14,722 hectare La Diana property. No modern systematic exploration work has ever been conducted at the San Miguel property. As is the case for the La Diana property, ASTER remote sensing imagery indicates that zones of potential hydroxyl bedrock alteration favorable for epithermal polymetallic mineralization are found throughout the San Miguel property.

At year ended February 28, 2015, the Company decided not to pay the semi-annual property tax levy to the Mexican authorities. Without an agreement to acquire both the San Javier and La Diana property concessions, continued investment in San Miguel is without merit. Therefore, the Company has written down its investment in the San Miguel property to a nominal amount.

ITEM 2 - Results of Operations

For the three-month period ended August 31, 2016, the Company incurred total operational expenses of \$64,897 versus \$24,707 in the same period in 2015, for an increase of \$40,190, or 163%.

For the six-month period ended August 31, 2016, the Company incurred total operational expenses of \$90,798 versus \$40,254 in the same period in 2015, for an increase of \$50,544, or 126%.

For the period ended August 31,	Three months ended		Six months ended

During the six-month period, general and administrative expenditures have increased by \$12,647 (37%) mainly due to filing fees paid in the period. Professional fees increased by \$44,626 (638%). The increase is due to the Company's continuous efforts to explore new business opportunities.

There was also a net revenue of \$21,618 for some debt settlement during the period and a share based payment of \$15,189 due to broker warrants issuance on a private placement completed in this quarter.

The net comprehensive loss for the three-month period ended August 31, 2016 was \$64,897 (2015 - \$24,707). The loss per share was \$0.00 based on 139,307,795 weighted average shares outstanding for the period versus a loss of \$0.00 based on 53,566,133 weighted average shares outstanding for the period ended August 31, 2015.

The net comprehensive loss for the six-month period ended August 31, 2016 was \$90,798 (2015 - \$40,254). The loss per share was \$0.00 based on 139,307,795 weighted average shares outstanding for the period versus a loss of \$0.00 based on 53,566,133 weighted average shares outstanding for the period ended August 31, 2015.

ITEM 5 - Capital Resources

In order to finance the Company's future development and expansion, management will be seeking to raise additional funds primarily by way of the issuance of common shares from the treasury. The timing and ability to fulfill these objectives will depend on the liquidity of the financial markets as well as the willingness of investors to finance junior exploration companies operating with limited operating history.

To date, the following financings have been completed by the Company:

	Gross Proceeds	
	\$	Type of Transaction
August 2, 2016	284,397	Private Placement

EQUITY FINANCING

During the Six Months Ended August 31, 2016

On July 27, 2016 and August 2, 2016 the Company closed a private placement of 59,008,331 units at a price of \$0.0075 per unit for gross proceeds of \$442,562.48 and 13,333,331 "flow-through" shares at a price of \$0.0075 per share for gross proceeds of \$99,999.98. Each unit consisted of one common share and one half of one share purchase warrant. Each whole warrant is exercisable into a common share at a price of \$0.01 for a period of three years following closing. The finder under the offering was paid finders' fees consisting of \$54,256.25 in cash and 7,234,166 broker warrants ("Broker Warrants"). Each Broker Warrant is convertible into one broker warrant unit (a "BW Unit") at a price of \$0.0075 per BW Unit for a period of two years from the date of issuance. Each BW Unit consists of one Share (a "BW Share") of the Company and one-half Warrant of the Company (each whole warrant, a "BW Warrant"). Each BW Warrant will entitle the holder to purchase one Share (a "BW Warrant Share") of the Company for a period of 36 months following the date of issuance of the BW Warrants at a price of \$0.01 per BW Warrant Share.

ITEM 8 - Proposed Transactions

Mineral Property Acquisition

On September 29, 2016, the Company entered into an option agreement to earn 100% interest in the Mont Sorcier Vanadium-Iron-Titanium project in Roy Township, Quebec, 18 km east of the Town of Chibougamau. Pursuant to the agreement, the Company will pay Chibougamau Independent Mines Inc. a single cash payment of \$100,000 and issue to Chibougamau Independent Mines Inc. 4 million common shares of the Company. A minimum of \$1 million of exploration will be undertaken in the first 24 months following signature of the agreement. Chibougamau Independent Mines will retain a 2% Gross Metal Royalty ("GMR") on all mineral production from the property. In order to facilitate the deal, Globex Mining Enterprises Inc. (GMX-TSX), which held a 3% GMR on a number of claims, has reduced its royalty to 1% GMR but it has been extended to the recently enlarged claim group. In addition, a finder's fees of 400,000 common shares the Company will be issued in relation to the acquisition.

On October 14, 2016, the Company and Chibougamau Independent Mines Inc. amended the payment terms of the agreement increasing the single cash payment to \$150,000 and decreasing the number of shares to 2,750,000 to be issued to Chibougamau Independent Mines Inc., and as a result of this change the finder's fee was reduced to 300,000 common shares of the Company. The Company is awaiting final approval from the Exchange for the above noted acquisition.

There are no other proposed transactions at this time.

ITEM 9 - Risk Factors

Investment in the Company must be considered highly speculative due to the nature of the Company's business, its formative stage of development, its current financial position and its lack of an earnings record. An investment in any securities of the Company should only be considered by those persons who can afford a total loss of their investment. The following is a summary of the risk factors to be considered:

- *Exploration Risks: exploration for minerals is a speculative venture necessarily involving substantial risk.*
- *Mining Risks: mineral resource exploration and development is a speculative business and involves a high degree of risk.*
- *Uninsurable Risks: mining operations generally involve a high degree of risk, which it cannot insure or against which it may elect not to insure due to prohibitive costs or otherwise in accordance with standard industry practice.*
- *Calculation Risks: there is a degree of uncertainty attributable to the calculation of mineral reserves, mineral resources and corresponding grades being dedicated to future production.*
- *No Assurance to Title or Boundaries: title to the Company's properties may be subject to prior unregistered agreements or transfers or native land claims and title may be affected by undetected defects.*
- *Competition: the mineral exploration and mining business is competitive in all of its phases.*
- *Permits and Licenses: the planned operations of the Company, including mineral exploration and development activities and commencement of production on its properties, require permits from various levels of government.*
- *Governmental Regulation and Policy Risks: failure to comply with applicable laws, regulations and permit requirements may result in enforcement actions thereunder, including orders issued by regulatory or judicial authorities causing operations to cease or be curtailed, and may include corrective measures requiring capital expenditures, installation of additional equipment, or remedial actions.*
- *Environmental Risks: mineral exploration and development, like many other extractive natural resource industries, is subject to potential risks and liabilities associated with the pollution of the environment and the disposal of waste products.*
- *Price Volatility of Publicly Traded Securities: in recent years and especially in the recent months, the securities markets in Canada and the United States have experienced a high level of price and volume volatility, and the market price of securities of many companies, particularly those considered to be development stage companies, have experienced wide fluctuations in price which have not necessarily been related to the operating performance, underlying asset values or prospects of such companies.*
- *Possible Failure to Realize Anticipated Benefits of Future Acquisitions: the Company may complete acquisitions to strengthen its position in the mineral exploration industry and to create the opportunity to realize certain benefits including, among other things, potential cost savings. Achieving the benefits of any future acquisitions depends, in part, on successfully consolidating functions and integrating operations, procedures and personnel in a timely and efficient manner, as well as the Company's ability to realize the anticipated growth opportunities and synergies from combining the acquired businesses and operations with its own.*
- *Operational Risks: mineral exploration operations are subject to all the risks and hazards typically associated with such operations, including hazards such as fire, explosion and contaminant spills, each of which could*

Vendome Resources Corp. Management's Discussion & Analysis

(Expressed in Canadian dollars)

result in substantial damage to mining properties, producing facilities, other property and the environment or in personal injury.

- *Substantial Capital Requirements; Liquidity:* the Company may have to make substantial capital expenditures for the acquisition, exploration, development and production of mineral resources in the future.
- *Issuance of Debt:* from time to time the Company may enter into transactions to acquire assets or shares of other Companies. These transactions may be financed partially or wholly through debt, which may increase debt levels above industry standards.
- *Dilution:* the Company's common shares, including incentive stock options, rights, warrants, special warrants, subscription receipts and other securities to purchase, to convert into or to exchange into common shares of the Company, may be created, issued, sold and delivered on such terms and conditions and at such times as the Board of Directors of the Company may determine.
- *Net Asset Value:* the Company's net asset value will vary dependent upon a number of factors beyond the control of the Company's management, including commodity prices.
- *Reliance on Management:* Shareholders of the Company will be dependent on the management of the Company in respect of the administration and management of all matters relating to the Company and its properties and operations.
- *Conflicts of Interest:* Certain of the directors and officers of the Company are also directors and officers of other reporting issuers involved in mineral exploration and development, and conflicts of interest may arise between their duties as officers and directors of the Company, as the case may be, and as officers and directors of such other companies.
- *No Dividends:* to date, the Company has not paid any dividends, and it is not anticipated that the Company will pay any dividends in the near future.
- *Changes in Legislation:* it is possible that the Canadian federal and provincial government or regulatory authorities could choose to change the Canadian federal income tax laws, royalty regimes, environmental laws or other laws applicable to mineral exploration companies and that any such changes could materially adversely affect the Company and the market value of the Company securities.
- *Early Stage Development Risks:* the Company has no history of operations and the Company is in the early stage of development and must be considered a start-up.
- *Future Financing Requirements:* the Company may need additional financing to continue in business and there can be no assurance that such financing will be available or, if available, will be on reasonable terms.

ITEM 13 - Capital Structure

The Company is authorized to issue an unlimited number of common shares, where each common share provides the holder with one vote.

As of the date of this Management Discussion and Analysis there were 14,580,773 post-consolidation common shares issued and outstanding, 2,950,416 post-consolidation purchase share warrants, 723,416 post-consolidation broker purchase share warrants and 1,050,000 post-consolidation share purchase options, all issued and outstanding.

ITEM 14 – Subsequent events

1) Consolidation:

On September 27, 2016 the Company filed articles of amendment consolidating its common shares on the basis of one (1) new post-consolidation common share for every ten (10) pre-consolidation common shares. The Company's common shares began trading on a post consolidated basis on the Exchange on September 28, 2016. As a result of the consolidation, the Company's outstanding 139,307,795 pre-consolidated common shares were reduced to 13,930,773 post-consolidated common shares. No fractional shares were issued, any fractions of a share were rounded down to the nearest whole number of common shares. The Company's name and trading symbol remained unchanged.

2) Debt Settlement:

On September 27, 2016, in connection with the Company's effort to restructure, the Company negotiated debt settlement agreements with various creditors. The outstanding debt with the creditors was extinguished through reduction of current debt from approximately \$187,778.69 to \$130,000 and the issuance of shares on a post-consolidation basis (the "Debt Settlement"). The Company agreed to settle the reduced amount of the debt in exchange for the issuance of an aggregate of 650,000 post-consolidated common shares. The debt settlement was based on a deemed price of \$0.20 per share on a post-consolidated basis.

The Company issued the common shares for the Debt Settlement on September 28, 2016.

3) Issuance of Options:

On September 27, 2016 the Company granted 1,050,000 incentive stock options to various Employees, Directors and a Consultant. The options are exercisable at \$0.20 per option, on a post-consolidation basis, for a period of 3 years from the date of grant and have no vesting conditions. The options are being issued under the terms of the Company's Stock Option Plans which were approved by shareholders at the Company's Annual General and Special Meeting on September 6, 2016.

4) Mineral Property Acquisition:

On September 29, 2016, the Company entered into an option agreement to earn 100% interest in the Mont Sorcier Vanadium-Iron-Titanium project in Roy Township, Quebec, 18 km east of the Town of Chibougamau. Pursuant to the agreement, the Company will pay Chibougamau Independent Mines Inc. a single cash payment of \$100,000 and issue to Chibougamau Independent Mines Inc. 4 million common shares of the Company. A minimum of \$1 million of exploration will be undertaken in the first 24 months following signature of the agreement. Chibougamau Independent Mines will retain a 2% Gross Metal Royalty ("GMR") on all mineral production from the property. In order to facilitate the deal, Globex Mining Enterprises Inc. (GMX-TSX), which held a 3% GMR on a number of claims, has reduced its royalty to 1% GMR but it has been extended to the recently enlarged claim group. In addition, a finder's fees of 400,000 common shares the Company will be issued in relation to the acquisition.

On October 14, 2016, the Company and Chibougamau Independent Mines Inc. amended the payment terms of the agreement increasing the single cash payment to \$150,000 and decreasing the number of shares to 2,750,000 to be issued to Chibougamau Independent Mines Inc., and as a result of this change the finder's fee was reduced to 300,000 common shares of the Company. The Company is final approval from the Exchange for the above noted acquisition.
