NINE- MONTH PERIODS ENDED NOVEMBER 30, 2017 AND 2016
UNAUDITED - PREPARED BY MANAGEMENT
EXPRESSED IN CANADIAN DOLLARS

NOTICE TO READER

Under National Instrument 51-102, Part 4, subsection 4.3 (3) (a), if an auditor has not performed a review of the interim financial statements, they must be accompanied by a notice indicating that the financial statements have not been reviewed by an auditor.

The accompanying unaudited interim consolidated financial statements of the Company have been prepared by and are the responsibility of the Company's management.

The Company's independent auditor has not performed a review of these interim consolidated financial statements in accordance with standards established by the Canadian Institute of Chartered Accountants for a review of interim financial statements by an entity's auditor.

To the Shareholders of Vanadium One Energy Corp. (the "Company"):

The accompanying financial statements of the Company are the responsibility of management.

The financial statements have been prepared by management in accordance with the accounting policies disclosed in the notes to the financial statements. Where necessary, management has made informed judgments and estimates in accounting for transactions which were not complete at the date of statement of financial position. In the opinion of management, the financial statements have been prepared within acceptable limits of materiality and are in accordance with International Accounting Standard 34-Interim Financial Reporting using accounting policies consistent with International Financial Reporting Standards ("IFRS") appropriate in the circumstances.

Management has established processes, which are in place to provide it sufficient knowledge to support management representations that it has exercised reasonable diligence that (i) the financial statements do not contain any untrue statement of material fact or omit to state a material fact required to be stated or that is necessary to make a statement not misleading in light of the circumstances under which it is made, as of the date of, and for the periods presented by, the financial statements and (ii) the financial statements fairly present in all material respects the financial condition, financial performance and cash flows of the Company, as of the date of and for the periods presented by the financial statements.

The Board of Directors is responsible for reviewing and approving the financial statements together with other financial information of the Company and for ensuring that management fulfills its financial reporting responsibilities. An Audit Committee assists the Board of Directors in fulfilling this responsibility. The Audit Committee meets with management to review the financial reporting process and the financial statements together with other financial information of the Company. The Audit Committee reports its findings to the Board of Directors for its consideration in approving the financial statements together with other financial information of the Company for issuance to the shareholders.

Management recognizes its responsibility for conducting the Company's affairs in compliance with established financial standards, and applicable laws and regulations, and for maintaining proper standards of conduct for its activities.

Accompanying notes form an integral part of these interim consolidated financial statements

1. General information and nature of operations

Vanadium One Energy Corp. (“**Vanadium One**” or the “**Company**”) was incorporated on February 27, 2007 pursuant to the *Business Corporations Act* (Ontario) and was classified as engaged in the exploration of its properties for base metals and precious metals in Canada and Mexico. All mineral property interests held are currently in the exploration stage.

The Company listed its common shares on the TSX Venture Exchange (the “Exchange”) for trading upon the completion of its initial public offering (“IPO”) as disclosed in a prospectus filed with the regulators and dated May 25, 2007. The Company’s shares were listed under the symbol VDR on the TSX Venture Exchange and 9VR on the Frankfurt Stock Exchange. At a Meeting of the Shareholders, on September 6, 2016, the Company name was changed to Vanadium One Energy Corp. and its symbol changed to VONE on the TSX Venture Exchange and to 9VR1 on the Frankfurt Stock Exchange. These interim consolidated financial statements of the Company were authorized for issue in accordance with a resolution of the directors on January 30, 2018.

2. Going concern disclosure

The Company’s principal assets are mining claims and deferred exploration costs relating to properties which are not in commercial projects. The Company is in the process of exploring its mining claims and has not yet determined whether or not the properties will contain economically recoverable reserves.

Several adverse conditions and events cast substantial doubt upon the validity of this assumption. Vanadium One is not currently generating any revenue from its operations and for the nine-month period ended November 30, 2017, the Company recorded a net comprehensive loss of \$612,736 (November 30, 2016 - \$273,419) and an accumulated deficit of \$7,460,796 (February 28, 2017 - \$6,848,060). Its ability to continue as a going concern is uncertain and is dependent upon its ability to fund its working capital, complete the development of its exploration projects, and eventually to generate positive cash flows from operations. Management plans to explore all alternatives possible, including joint ventures, debt and equity financings, and merger opportunities.

These interim consolidated financial statements do not reflect the adjustments to the carrying values of assets and liabilities and the reported expenses and financial statement classifications that would be necessary were the going concern assumption inappropriate, and these adjustments could be material.

3. Basis of preparation

Statement of Compliance: These Interim Unaudited Consolidated Financial Statements have been prepared in accordance with International Accounting Standard 34 - Interim Financial Reporting (“IAS 34”) as issued by the International Accounting Standards Board (“IASB”). These Interim Unaudited Consolidated Financial Statements should be read in conjunction with the Company’s most recently issued Annual Report which includes information necessary or useful to understanding the Company’s business and financial statement presentation. In particular, the Company’s significant accounting policies were presented in Note 3 of the consolidated financial statements for the years ended February 28, 2017 and February 29, 2016, and have been consistently applied in the preparation of these interim consolidated financial statements. These Interim Unaudited Consolidated Financial Statements have been prepared on a historical cost basis except for certain financial assets which are recorded at fair value. In addition, these Interim Unaudited Consolidated Financial Statements have been prepared using the accrual basis of accounting except for cash flow information.

Basis of Consolidation: the interim consolidated financial statements of the Company include the accounts of its wholly-owned subsidiary Vendome Minas, S.A. de C.V. (“**VDR Mexico**”). The interim consolidated financial statements accounts of VDR Mexico from the date that it commenced its operations, which was January 1, 2011.

Functional and presentation currency: these interim consolidated financial statements are presented in Canadian dollars, which is Company’s functional currency.

4. Summary of significant accounting policies

See annual consolidated financial statements for the years ended February 28, 2017 and February 29, 2016 for a list of accounting policies used by the Company.

5. Summary of accounting estimates and judgements

The preparation of the financial statements in conformity with IFRS requires management to make estimates and judgements that affect the reported amounts of assets, liabilities and contingent liabilities at the date of the financial statements and reported amounts of revenues and expenses during the reporting period. Estimates and judgments are continuously evaluated and are based on management's experience and other factors, including on historical experience and expectations of future events that are believed to be reasonable under the circumstances. Actual results may differ from these estimates and assumptions. The estimates and judgments that, in management's opinion, have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities are disclosed in the annual audited consolidated financial statements.

See annual consolidated financial statements for the years ended February 28, 2017 and February 29, 2016 for a list of accounting estimates and judgements considered significant by management.

6. Accounting pronouncements

Accounting standard issued for adoption in future periods

The following standards have been issued but are not yet effective. The Company is assessing the impact of this new standard, but does not expect it to have a significant impact on the consolidated financial statements.

- In July 2014, the IASB published IFRS 9 to replace IAS 39 Financial Instruments: Recognition and Measurement (IAS 39). The improvements introduced by IFRS 9 include a logical model for financial asset classification and measurement, a single, forward-looking 'expected loss' impairment model based on expected credit losses, and a substantially-reformed approach to hedge accounting. This standard applies to fiscal years beginning on or after January 1, 2018; early adoption is permitted. The Company intends to adopt IFRS 9 in its financial statements for the annual period beginning on March 1, 2018 and does not expect the adoption of IFRS 9 to have a material effect on its consolidated financial statements based on its current holding of financial instruments.
- On January 13, 2016, the International Accounting Standards Board published a new standard, IFRS 16, Leases, eliminating the current dual accounting model for lessees, which distinguishes between on-balance sheet finance leases and off-balance sheet operating leases. Under the new standard, a lease becomes an on-balance sheet liability that attracts interest, together with a new right-of-use asset. There are optional exemptions for short-term leases and leases of low value items. In addition, lessees will recognize a frontloaded pattern of expense for most leases, even when cash rentals are constant. IFRS 16 replaces existing leases guidance including IAS 17 Leases, IFRIC 4 Determining whether an Arrangement contains a Lease, SIC-15 Operating Leases—Incentives and SIC-27 Evaluating the Substance of Transactions Involving the Legal Form of a Lease. IFRS 16 is effective for annual periods beginning on or after January 1, 2019, with earlier adoption permitted. The Company intends to adopt IFRS 16 in its financial statements for the annual period beginning on March 1, 2019 and does not expect the adoption of IFRS 16 to have a material effect on its consolidated financial statements.

(i) **Ivanhoe Lake Property, Ontario:** on July 30, 2012, the Company completed the acquisition of a 100% interest in the Ivanhoe Lake property (the "Property") located in the Borden Lake Gold District, Ontario, Canada. The vendors retain a 3% net smelter royalty on the property. The Company was granted the right to purchase 50% of the net smelter royalty at any time for a payment of \$3,000,000 to the vendors. On September 5th, 2014, the Company acquired additional mining claims contiguous to its Ivanhoe Lake Property. The additional claims are located directly adjacent to the western boundary of the original Ivanhoe Lake claims and double the size of the footprint in the region. The claims were acquired from the vendors of our original claims pursuant to an amendment

to the existing agreement. Vanadium paid \$6,000 in cash to the vendors and amended the existing agreement to include the claims under the same terms and conditions as in the original agreement. As at February 28, 2017 the Company wrote down these claims to a nominal amount as they are not part of the Company's future exploration plans.

(ii) **San Miguel Property, Mexico:** in July 2011, the Company acquired the San Miguel property ("San Miguel Property") from Santa Claws Minas., De C.V. for \$25,000 in cash and 2,500,000 common shares of the Company. The San Miguel Property is located within the southern portion of the Sierra Madre del Sur precious metal belt in the State of Guerrero, Mexico. The Company has written down the value of the Property in prior years to a nominal amount of \$1.

(iii) **Clinton Manganese Property, British Colombia:** In July 2016, the Company agreed to acquire a 100% interest in the Clinton Manganese property ("Clinton Property") located near Clinton in British Columbia, Canada. The agreement called for a payment of \$20,000 and the issuance of 12,000,000 common shares at \$0.0075. In addition, a finder's fees of 1,400,000 common shares at \$0.0075 were issued in relation of the acquisition.

(iv) **Mont Sorcier, Vanadium Project, Quebec:** In November 2016, the Company agreed to acquire a 100% interest in the Mont Sorcier Vanadium property ("Sorcier Property") located near Chibougamau in Quebec, Canada. The agreement called for a payment of \$150,000 and the issuance of 2,750,000 post-consolidation common shares at \$0.175. The Company has agreed to undertake a minimum of \$1 million in exploration expenditures on the property within in the first 24 months following signature of the agreement. Chibougamau Independent Mines will retain a 1% Gross Metal Royalty ("GMR") on all mineral production from the property. In order to facilitate the transaction, Globex Mining Enterprises Inc., which held a 3% GMR on a number of claims, has reduced its royalty to 1% GMR but it has been extended to the recently enlarged claim group. In addition, 300,000 post-consolidation common shares at \$0.175 were issued as a finders' fee.

10. Accounts payable and accrued liabilities

Accounts payable and accrued liabilities were comprised of the following balances:

	November 30, 2017	February 28, 2017
	\$	\$
Accounts payable	182 838	27 088
Accrued liabilities	38 401	44 000
	221 239	71 088

The Company has negotiated debt settlement agreements with various related parties and creditors. The outstanding debts with creditors were extinguished through reduction of current debt from approximately \$187,779 to \$130,000 and the issuance of shares on a post-consolidation basis. The company has agreed to settle the reduced amount of the debt in exchange for the issuance of an aggregate of 650,000 post-consolidated common shares. The debt settlement was based on a deemed price of \$0.20 per share on a post-consolidated basis. Accounts payable and accrued liabilities includes an amount of \$1,695 as at November 30, 2017 (February 28, 2017 - \$2,265) due to related parties (see Note 12).

11. Shareholders' Equity

- (a) On August 3, 2016 Vanadium announced the closing of a private placement in the gross amount of \$542,562. A total of 59,008,331 Units of the Company were issued at a price of \$0.0075 per unit for gross proceeds of \$442,562, and 13,333,331 "flow-through" shares at a price of \$0.0075 per share for gross proceeds of \$100,000. Each Unit consists of one common share in the capital of the Company and one half of one common share purchase warrant. Each whole warrant entitles its holder to purchase one additional common share at an exercise price of \$0.01 for a period of 3 years from the closing date of the private placement.

The Company closed its first tranche of the private placement on July 27, 2016 of which the Company issued 21,089,999 Units for gross proceeds of \$158,175 (the "First Tranche"). The Company closed its final tranche of the private placement on August 2, 2016 of which the Company issued 37,918,332 Units for gross proceeds of \$284,387 and 13,333,331 "flow-through" shares for gross proceeds of \$100,000 (the "Final Tranche").

Finder's fees consisting of \$54,256 in cash and 7,234,166 broker warrants ("Broker Warrants") were paid to the finders in accordance with policies of the TSX-V. Each Broker Warrant is convertible into one broker warrant unit (a "BW Unit") at a price of \$0.0075 per BW Unit for a period of two years from the date of issuance. Each BW Unit consists of one Share (a "BW Share") of the Company and one-half Warrant of the Company (each whole warrant, a "BW Warrant"). Each BW Warrant will entitle the holder to purchase one Share (a "BW Warrant Share") of the Company for a period of 3 years following the date of issuance of the BW Warrants at a price of \$0.01 per BW Warrant Share.

- (b) On July 25, 2016 under the terms of the Clinton Manganese Property acquisition agreement described in Note 9(iii) above the Company issued 12,000,000 (pre-consolidation) common shares at \$0.0075. In addition, finder's fees of 1,400,000 common shares at \$0.0075 were issued in relation to the acquisition (see note 9 (iii)).

- (c) On September 28, 2016 Vanadium announced the consolidation of its common shares on the basis of one (1) new post-consolidation common share for every ten (10) pre-consolidation common shares. As a result of the consolidation, the Company's outstanding 139,307,795 common shares were reduced to 13,930,773 common shares. No fractional shares were issued. Any fractions of a share were rounded down to the nearest whole number of common shares. The consolidation was approved by the shareholders of the Company on September 6, 2016 and accepted by the TSX Venture Exchange on September 26, 2016.
- (d) On September 28, 2016, in connection with the Company's effort to restructure, Vanadium has negotiated debt settlement agreements with various creditors. The outstanding debt with the creditors were extinguished through reduction of current debt from approximately \$187,778.69 to \$130,000 and the issuance of shares on a post consolidation basis (the "Debt Settlement"). The company agreed to settle the reduced amount of the debt in exchange for the issuance of an aggregate of 650,000 post-consolidated common shares. The debt settlement will be based on a deemed price of \$0.20 per share on a post-consolidated basis.
- (e) On November 8, 2016 under the terms of the Mont Sorcier Vanadium Iron, Titanium acquisition agreement more fully described in Note 9(iv) the Company issued to Chibougamau Independent Mines 2,750,000 common shares. In addition, finder's fees of 300,000 common shares of the Company were issued in relation to the acquisition.

14. Capital Management and Liquidity

The Company considers its capital structure to consist of its cash, common shares, stock options and warrants. The Company manages its capital structure and makes adjustments to it, in order to have the funds available to support the acquisition, exploration and development of mineral properties. The Board of Directors does not establish quantitative return on capital criteria for management, but rather relies on the expertise of the Company's management to sustain future development of the business. The Company manages the capital structure and makes adjustments to it in light of changes in economic conditions and the risk characteristics of the underlying assets. To maintain or adjust the capital structure, the Company may attempt to issue new shares, issue new debt, acquire or dispose of assets or adjust the amount of cash.

The Company and its subsidiary are not subject to any capital requirements imposed by a lending institution or regulatory body, other than of the TSX Venture Exchange ("TSX-V") which requires adequate working capital or financial resources of the greater of (i) \$50,000 and (ii) an amount required in order to maintain operations and cover general and administrative expenses for a period of six months. As of November 30, 2017, the Company may not be totally compliant with the policies of the TSX-V. The impact of this violation is not known and is ultimately dependent on the discretion of the TSX-V. Management reviews its capital management approach on an ongoing basis and believes that this approach, given the relative size of the Company, is reasonable. There were no changes in the Company's approach to capital management during the periods ended November 30, 2017, and 2016. Neither the Company nor its subsidiaries are subject to externally imposed capital requirements. The Company's capital for the reporting periods is summarized as follows:

15. Financial Instruments

Financial Instruments details can be summarized as follows:

	Level of Fair Value Measurement	Balance as at	
		November 30, 2017	November 30, 2016
		\$	\$
Loans and receivables			
Cash and cash equivalents	Level 1	314 631	106 607
Interest and sundry receivables	Level 2	57 014	36 234
		371 645	142 841
Financial liabilities measured at amortized cost			
Accounts payable and accrued liabilities	Level 1	221 239	211 593
		221 239	211 593

Fair Value of Non-Derivative Financial Instruments

Fair value is the amount that willing parties would accept to exchange a financial instrument based on the current market for instruments with the same risk, principal and remaining maturity. The fair value of interest bearing financial assets and liabilities is determined by discounting the contractual principal and interest payments at estimated current market interest rates for the instrument. Current market rates are determined by reference to current benchmark rates for a similar term and current credit spreads for debt with similar terms and risk.

The Company values instruments carried at fair value using quoted market prices, where available. Quoted market prices represent a Level 1 valuation. When quoted market prices are not available, the Company maximizes the use of observable inputs within valuation models. When all significant inputs are observable, the valuation is classified as Level 2. Valuations that require the significant use of unobservable inputs are considered Level 3. Level 3 fair values are based on a number of valuation techniques other than observable market data. There are no level 3 values currently recorded on the balance sheet of the Company.

16. Financial Risk Management

The Company thoroughly examines the various financial instrument risks to which it is exposed and assesses the impact and likelihood of those risks. These risks may include credit risk, liquidity risk, market risk and interest rate risk.

(i) Credit risk

Credit risk is the risk of financial loss to the Company if a customer or counterparty to a financial instrument fails to meet its obligations. The Company is not exposed to credit risk due to the nature of the collectible accounts. At November 30, 2017 and 2016, the Company does not have any allowance for doubtful accounts. Management actively monitors the Company's exposure to credit risk under its financial instruments, including with respect to amounts receivable. The Company considers the risk of loss for its amounts receivable to be remote and significantly mitigated due to the financial strength of the party from whom the receivables are due - the Canadian government for harmonized sales tax ("HST") refunds receivable.

(ii) Liquidity risk

Liquidity risk is the risk that the Company cannot meet its financial obligations associated with financial liabilities in full. The primary source of liquidity is net operating income, which is used to finance working capital and capital expenditure requirements, and to meet the Company's financial obligations associated with financial liabilities. Additional sources of liquidity are debt and equity financing, which is used to fund additional operating and other expenses and retire debt obligations at their maturity. In addition to having a working capital deficiency The Company's approach to managing liquidity risk is to ensure that it will have sufficient cash to meet liabilities when due. All of the Company's financial liabilities have contractual maturities of less than one year and are subject to normal trade terms. The Company's ability to continue operations and fund its business is dependent on management's ability to secure additional financing. It is anticipated that the Company will continue to rely on equity financing to meet its ongoing working capital requirements. The Company has a significant working capital deficiency at period end and therefore liquidity risk is considered high.

(iii) Market risk

Market risk is the risk that changes in market price, such as foreign exchange rates, commodity prices, and interest rates will affect the Company's net income or the value of financial instruments. These risks are generally outside the control of the Company. The objectives of the Company are to mitigate market risk exposure within acceptable limits, while maximizing returns. The Company has no significant exposure to market risk.

(iv) Interest rate sensitivity

The Company has no significant exposure at November 30, 2017 and 2016 to interest rate risk through its financial instruments.

(v) Foreign Exchange Risk

The Company is exposed to foreign currency fluctuations as the Company's fully owned subsidiary operates in MXN pesos. The translation effects of changes in exchange rates in the Consolidated Statement of Financial Position were net translation gain of \$Nil (2015 - \$Nil) are recorded within Accumulated Other Comprehensive Income in Shareholders' Equity. Management believes that foreign exchange risk is not significant as at November 30, 2017 and 2016.

17. Commitments and contingencies

From time to time, the Company may be exposed to claims and legal actions in the normal course of business, some of which may be initiated by the Company. As at November 30, 2017 the Company's management is not aware of any commitments and/or contingencies.

18. Subsequent events

On December 19, 2017, Vanadium One announced the completion of a non-brokered private placement financing (the "Financing"). Pursuant to the Financing, the Company issued 4,636,454 "flow-through" common shares of the Company at a price of \$0.11 per share for proceeds to the Company of \$510,009.94. The \$0.11 issue price is at a 47% premium to the current market price for the Company's shares. The Company intends to use the proceeds from the private placement for exploration on certain properties in Quebec and British Columbia.
