

Vanadium One Energy Corp. Revises Previously Announced Private Placement

TORONTO, CANADA, September 26th, 2018 - Vanadium One Energy Corp. (the “**Company**”) (TSXV:VONE, FRANKFURT:9VR1), is pleased to announce a revision to our proposed non-brokered private placement financing as announced on September 10, 2018. The Company is increasing the aggregate gross proceeds to the Company from up to \$500,000 (the “**Offering**”) to \$1,000,000, through a combination of Units and Flow-Through shares. The units will be priced at \$0.07 per unit and the Flow-Through shares will be priced at \$0.10 per share, as previously announced. Each unit will consist of one common share in the capital of the Company and one common share purchase warrant. Each warrant will entitle its holder to purchase one additional common share at an exercise price of \$0.14 for a period of 2 years from the closing date of the private placement. There can be no assurance that the Offering will be completed, whether in whole or in part. The company may pay up to 6% in Finders’ Fees on the proceeds from Flow-Through shares and up to 6% on Units. In addition, Finders’ Warrants equal to 8% of the number of Units issued, pursuant to subscriptions introduced to the Company by the Finder, will be granted. Each Finders’ Warrant shall entitle the Finder to acquire one (1) Unit at an exercise price of \$0.07 per Unit for a term of twenty-four (24) months following the date of closing of the Offering.

Directors and officers of the Company may participate in the Offering. Accordingly, any such participation would be considered a “related party transaction” under Multilateral Instrument 61-101 - Protection of Minority Security Holders in Special Transactions (“MI 61-101”). However, such participation would be exempt from the formal valuation and majority of the minority shareholder approval set out in MI 61-101 since at the time the transaction was agreed to: (i) the securities of the Company were not listed or quoted on one of the exchanges or markets specifically identified in MI 61-101; (ii) neither the fair market value of the securities to be distributed in the Offering nor the consideration to be received for those securities, insofar as the transactions involves interested parties, would exceed \$2,500,000; and (iii) the Company has one or more independent directors and, at least two thirds of said independent directors approved the transaction, as required pursuant to sections 5.5 and 5.7 of MI 61-101.

The Company will use the proceeds of the Offering to finance the Company's continuing exploration program at its Mont Sorcier Vanadium Magnetite project near Chibougamau, Quebec, and for general working capital requirements.

Completion of the Offering is subject to certain conditions including, but not limited to, the receipt of all necessary approvals, including the approval of the Exchange and the securities regulatory authorities. All securities issued by the Company in connection with the Offering will be subject to a statutory four month hold period.

About Vanadium One Energy Corp.:

Vanadium One Energy Corp. is a mineral exploration and development company with its registered office in downtown Toronto, Canada, and its operational office located in Burlington, Ontario, Canada. The Company is focused on developing exploration projects that reside in the “Strategic Minerals” domain, as defined by the USGS. Our goal is to ascertain the metallurgical characteristics of these strategic minerals on our projects, define the extent of the resource on each project and to demonstrate the economic viability of extraction. It is the intent of the Company to become an integral part of the supply chain for the traditional, but still expanding, HSLA steel industry and to gain its share of the new, and burgeoning, battery storage technology sector. Vanadium One Energy Corp. is managed by an experienced team of mining professionals with extensive operating and financial experience.

ON BEHALF OF THE BOARD OF DIRECTORS OF VANADIUM ONE ENERGY CORP.
